\_\_\_\_\_

Part 3- Reading Comprehension

Read then answer the questions that follow:

The chameleon is an amazing animal. It can change its color so that it matches the place it is in! When it is on a green leaf, it becomes green. When it is on the ground, it is brown. It changes its color to protect itself from other animals. When it is green on a leaf no one can see it. It is safe. When the chameleon is scared, it gets red spots all over its skin. Chameleons change their color at different times of a day. In the daytime, they are very bright and colorful but at night-time they are pale. Chameleons live on trees. They eat insects. They catch their food with their long tongues. The chameleon walks very slowly but it catches food very quickly.

A) Answer the questions:

(15pts)

1. Why is the chameleon an amazing animal?

---

---

2. Why does it change its color?

---

---

3. When does it get red spots?

---

---

4. How do they eat?

---

---

B) True/False. Correct the false ones:
